

A PEEK INSIDE THE WINE TENTS

The diagram to the right is what the inside of a wine tent will look like. Each large tent will house a long tasting bar that features 8-12 wineries.

The size and number of tents we order will depend on how many wineries participate. Configuration will be altered closer to the festival dates.

CLOSE UP OF BOOTH SPACE

The number of booths you order will depend on how much wine you plan to sell. A 10'x12' booth will hold 2 pallets of wine. 2 booths will hold 5 pallets (except corners that will only hold four).

Extra pallets beyond the capacity you see here will not be allowed on the festival grounds so please order as many booths as you need to accommodate your inventory. You will have the ability to restock Saturday evening but we will not have the big forklift that day.
